MINUTES OF MEETINGS  
OF THE  
**Board of Commissioners**

---

JUNE 7, 14, 21, 28, 1921

---

NEWARK, N. J.

June 7, 1921.

A regular meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date, in the Council Chamber, City Hall, Newark, at 11 A. M.

Present: Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Absent: Commissioner Raymond.

The minutes of meeting of May 31st, 1921, were read and approved.

Mayor Archibald: Is there any citizen desiring to be heard on any matter?

Mr. Sidney S. Silver, 790 Broad Street, Newark: Mr. Mayor and Gentlemen: I wish to call the attention of this Board to the condition which is existing at the present time on Prince, Court and Broome Streets. This section is being used at the present time by peddlers and push cart men, and I want to call the attention of the Commissioners to the condition in which these streets are left at night. Push carts and

peddler wagons are allowed to stand in the street all night without regard to the danger to life and property. In addition I have reports that the landlords of that section are collecting rents from these peddlers and push cart men and tell them they can let their vehicles stay there at night. I think some ordinance should be passed making it unlawful to allow these wagons and push carts to remain on the streets between the hours of 10 P. M. and 5 o'clock in the morning.

Commissioner Brennan: It has always been regarded as a necessary evil to allow these push cart men to occupy the streets in this section. However, I will be very glad to look into the matter very seriously and see what can be done.

Commissioner Gillen moved that the matter be referred to the Department of Public Safety.

The roll being called, the motion was declared adopted by the following votes:

Yeas: — Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Mrs Joseph E Conlon, Prudential Bldg., Newark, appeared before the Board and presented the following petition:

In the matter of the Application of James Sullivan for the assessment of damages caused by the erection of an abutment in front of his premises at No. 196 Heller Parkway, Newark, N. J. } Petition.

To the Honorable Mayor and Board of Commissioners of the City of Newark.

The petition of James Sullivan of No. 196 Heller Parkway, Newark, New Jersey, respectfully shows that:

(1) He is the owner of the premises known and designated as No. 196 Heller Parkway in the City of Newark, New Jersey, which premises are 50 feet front by 150 feet in depth.

(2) About one year ago the Director of the Department of Streets and Public Improvements was directed to and did construct over the Morris Canal at Heller Parkway two complete girder bridges with the necessary abutment and grading, etc.

(3) Practically all of said work has been completed with the exception of the paving.

(4) The said abutment was constructed within the old line of Heller Parkway from the Morris Canal to a point about 200 feet west of said Morris Canal, and is built directly in front of and extends to both sides of the premises of the petitioner in accordance with the sketch hereto annexed and made a part hereof.

(b) he property of the petitioner, by reason of the abutment, has depreciated greatly in value, but petitioner has not been awarded any damages therefor.

The petitioner therefore prays that the damages to his premises aforesaid may be assessed and awarded to him.

JOSEPH E. CONLON,  
Attorney for Petitioner.

Dated Newark, N. J., June 7th, 1921.

Commissioner Brennan moved that the matter be referred to the Department of Streets and Public Improvements.

The roll being called, the motion was declared adopted by the following votes:

Yeas: — Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Mr. Herman W. Brams, 800 Broad Street, Newark, appeared before the Board and presented the following resolution:

JAMES V. MARZANO POST,

United American War Veterans.

Wm. J. Egan, Esq.,  
City Clerk,  
Newark, N. J.

Dear Sir:—

Resolutions adopted at the meeting held June 3, 1921:

RESOLVED, That the James V. Marzano Post, United American War Veterans, do hereby call the attention of the Commissioners of the City of Newark to the fact that among the unemployed in our City are hundreds of men who put on uniforms

and went to the front when our country called for men. That these men gave up the comfort of their homes cheerfully, and willingly went forth to prove their Americanism when proof of Americanism was put to the test. And while they were away those who remained at home enjoyed comforts and prosperity. Now, we who proved our Americanism in the way and manner Americanism can best be shown feel that our city executives should recognize this loyalty of our comrades by giving to service men first preference in all city work. We know that the promise to do this has been made time and again, and we know too, how well that promise has been kept.

THEREFORE, We ask that special efforts be made by the Mayor and his fellow Commissioners to find and provide work for former service men by having inserted in all contracts for municipal works a clause compelling contractors to give preference to service men.

FURTHER, That where public improvements are contemplated by the City this work be hastened so that immediate employment may be found for and given to recognized Americans—service men.

HERMAN W. BRAMS,  
Chairman;

JAMES V. PAPS,

JOSEPH NAPOLIELLO,  
Committee.

Mayor Archibald: It would be necessary in order to comply with all of the features of that resolution to have legislation permitting it. At

present there is a law which makes it necessary to appoint a soldier to a position where he is one of the first three on the list. That has been the practice and the Commission has always given preference to service men where there are no legal obstacles in the way.

Commissioner Breidenbach moved that the resolution be received and filed and a copy be furnished to each Commissioner.

The roll being called, the motion was declared adopted by the following vote:

Yeas: — Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Mr. George W. W. Porter, 786 Broad Street, Newark: I would like to know about the contemplated action on the automobile parking ordinance.

Commissioner Brennan: It is my intention to introduce this ordinance this morning and give it one reading and arrange for public hearings to be held wherein all parties interested may sit around this round table and get together. Something may be gotten out of such a meeting. This ordinance is in line with the request of the Chief Justice and there is no desire on my part to impose any hardship on automobile owners.

BOARD OF EDUCATION  
City Hall

Newark, N. J., April 29, 1921.

Board of Commissioners of The City of Newark.

Gentlemen:

At the meeting of the Board of School Estimate held on Friday morning, April 29, 1921, it was decided to recommend to the Board of Commissioners of the City of Newark, that an appropriation of one million nine hundred and ninety thousand dollars (\$1,990,000) be

made and placed to the credit of the Board of Education for the purchase of lands for school purposes and for erecting, enlarging, repairing or furnishing school houses in the City of Newark as set forth in the attached certificate.

Yours respectfully,

R. D. ARGUE,  
Secretary.

Commissioner Brennan: Is that the resolution adopted by the Board of School Estimate prior to April 29? If it is, is there not now a question as to its legality? I think it should be referred to the Law Department for an opinion as to its legality.

Mr. Thomas A. Kenny, President of the Board of Education: This is a resolution adopted by the Board of School Estimate previous to the reorganization as at present. It provides for three or four elementary school projects, together with Continuation Schools and Junior College. I do not want this matter passed upon lightly. After the meeting of the Board of School Estimate, it was brought to my attention through the newspapers that if this project were passed, the City of Newark would possibly exceed its debt limit. This, however, is evidently not so. If this is passed we will not pass the limit fixed by the laws of New Jersey. However, the New York Market is the market for our bonds, and it may be possible if this project is passed that we will deprive ourselves of the New York Market. There is no one more interested than myself to preserve the credit of the City of Newark, but other conditions confront me as a member of the Board of School Estimate and President of the Board of Education. We have three schools that contain fire hazards that

should be removed at once, and there should be no further delay in this matter. These are the Eliot, Charlton and Hawkins Street Schools. These could be fireproofed at a cost of \$40,000, but I do not want to spend this money if the proposed extensions to the buildings are to be authorized. I do not want to see these buildings remain in their present condition any longer and I will not assume the responsibility if they are not put in condition to be reopened in the fall through delay by the Estimate Board. The State Board has been after us to remedy this condition for the last two or three years. It calls for immediate action. Some action should be taken to pass it in part if not in whole. These buildings should be fireproofed during the summer when they are closed; otherwise it will be necessary to close some of these schools in the fall. It is within your power to provide this money and I think it should be provided immediately.

Commissioner Brennan: You would not want a budget passed today when there may be a question as to its legality?

Mr. Kenny: I would not, but I do not see how it could not be. I do not propose to have schools opened in September with these existing conditions. It will take several months to prepare plans and remedy these conditions. The money must be made available at once. I do not want to involve this Commission and my own Board in litigation; at the same time I cannot allow this matter to pass in a cursory way. I am the one that must shoulder the responsibility. If a fire takes place it will be up to me and not the City Commission and I come here today to call your atten-

tion to these conditions. I will not assume responsibility that does not belong to me.

Commissioner Gillen: The Board of School Estimate you will remember some time ago presented a budget where immediate action was necessary in order to meet certain conditions and with that end in view we passed that budget rather hastily because the Board deemed it necessary on account of the great urgency. There can be doubt in the minds of any people as to the absolute need of immediate funds to prepare these schools for the fall. In the State of New York where this Junior College is now housed in a high school, the State Board has stated that it will not be recognized in the State of New York unless it is housed in a building of its own, when it will be recognized for its true work and true value. It seems to me as a member of this Board and as a citizen, that immediate action should be taken and in order that the credit of the City may not be impaired, a meeting of the Board of School Estimate should be held at once. The summer is coming on and these funds must be provided.

Mayor Archibald: We endeavored to have a meeting of the Board of School Estimate last Tuesday but Commissioner Raymond was sick and I expected to call one for today but he is still sick, and I want to have him here at that time.

Mr. Kenny: May I make a suggestion? Would it not be possible to pass this budget in part?

Corporation Counsel Congleton: I do not think you can pass it in part. This Board has no discretion in cutting out items. This Board as I understand the law has no authority to

cut out any single item. If you pass it as it is, it will take us out of our debt limit as figured in New York and keep us out of the New York Bond Market.

Mr. Kenny: I have been waiting for a month. It is up to me and if there is any responsibility I will not assume it.

Mayor Archibald: It is up to me and I publicly say I will assume the responsibility. I will accept full responsibility. I will call a meeting at the earliest date I can arrange it.

Commissioner Brennan moved that the matter be referred back to the Board of School Estimate for further consideration.

The roll being called, the motion was declared adopted by the following votes:

The following communications were received and read:

223 McWhorter Street,

Newark, N. J., June 3, 1921.

His Honor, Mayor Alexander Archibald, Mayor,

Mayor of The City of Newark, N. J.  
City Hall, Newark, N. J.

Sir:

As a Citizen and Soldier I respectfully request that you with your Honorable Body of City Commissioners take such action as will demand a full and complete explanation of the action of the Musicians' Local Union in refusing to parade Memorial Day along with the band of the Salvation Army and which band was to

render marching music for the Blue and Gray Veterans' Association, not on the ground of its refusal to parade with such body but the action of which would have had a tendency to interfere with the City's Honor to our Heroic Dead both Local and National.

I respectfully beg to ask you, is this the reply of our fair city to the appeal of our able national military leader, General John J. Pershing, in his request for a new and greater patriotism throughout the land, is such action not only local but national since it would have been the means of preventing the proper Memorial Services to those of not only our City but State and Country as well?

If you are unable as a body to take any official action in this matter does not your love of American Patriotism demand that the action on the part of any organized body to interfere with the respect to our Heroic Dead is cause for your bitter resentment or are you in sympathy with the idea that Memorial Day Services are to be paid for and commercialized by such as the Essex Trades Council?

If the Salvation Army Band has sought to compete with such as the Local Union Bands in rendering Music at professional affairs such as dances or games or other pastimes, I feel the Unions would have been justified in their stand but to commercialize and Unionize Memorial Services for men who died that we may live in glory, is more than I can stand by to witness without exerting every power to prevent it and I believe the Commissioners of the City of Newark are Americans enough and Patriotic enough to make certain that the wrongs committed on this last Memorial Day be answered for

as well as making it a certainty that no such action will again serve to stain the annals of our patriotic services to our Heroic Dead.

Respectfully yours,

WILLIAM JAMES TAYLOR, JR.

Commissioner Brennan moved that the communication be received and referred to Mayor Archibald for such investigation as he may see fit.

BOARD OF  
CHOSEN FREEHOLDERS

Essex County, New Jersey

Court House, Newark, N. J.

June 3, 1921.

Hon. Alexander Archibald, Director,  
City Hall, Newark, N. J.

Dear Sir:

At Director Hines' request I beg to call your attention to the following resolution adopted by the Board of Chosen Freeholders April 14:

WHEREAS, This Board has been informed that there is a great disproportion between the amount of ratables for taxation found during the year 1920 in several of the counties of Hudson and Essex; that is to say, such ratables in the year 1920 in the Counties of Essex and Hudson amounting to the sum of \$1,494,957,189 and such ratables in other counties of the State in the same year amounting to the sum of \$1,760,007,079; and,

WHEREAS, This Board has also been informed that 46% of the taxes levied in the State were paid in Essex and Hudson Counties; and,

WHEREAS, This Board has also been informed that in the other counties of this State the ratables for taxation for the year 1920 were from 30% to 65% of real value, while those in the counties of Essex and Hudson are 80% of real value; and,

WHEREAS, This Board is of the opinion, in case the above mentioned facts upon investigation can be substantiated, that this county is bearing more than its just proportion of the taxes of the State; Now, Therefore, Be It

RESOLVED, That the Director be and he hereby is authorized to appoint a committee of three to make preliminary investigation of the facts above set forth and with all convenient speed make a report to this Board thereon. Be It Further

RESOLVED, That the Director be and he hereby is ex-officio made a member of said committee.

The above resolution has been sent to the Hudson Freeholders and to Jersey City, who are greatly interested; and was also sent to the City of Newark, but has perhaps been lost sight of during the change of administration. Mr. Hines hopes that the City of Newark will also take an interest as the City bears such a large share of the county taxes. The other members of the Committee of Freeholders are Messrs. Lindeman, Hicks and Mungle.

Trusting that the City will cooperate,

Yours truly,  
GEO. M. COE,  
Assistant Clerk.

Commissioner Brennan: Mr. Mayor, I have an ordinance I desire to present for first reading.

Commissioner Brennan offered the following ordinance which was read by the clerk:

An Ordinance providing for the regulation of vehicles at rest on certain streets of The City of Newark, and providing penalties for the violation thereof.

The Board of Commissioners of The City of Newark Do Ordain:

Section 1. That for the purposes of this ordinance the following zone in the City of Newark is hereby established and shall be known as "Zone No. 1," for the regulation of vehicles at rest in the public streets within said zone:

BEGINNING at the intersection of the northerly curb of Washington Place and the easterly curb of Washington Street; thence running easterly along the northerly curb of Washington Place to the westerly curb of Broad Street; thence northerly along the westerly curb of Broad Street to a point in range with the northerly curb of Lombardy Street; thence easterly in line with and along the northerly curb of Lombardy Street to the easterly curb of Ogden Street; thence southerly along the easterly curb of Ogden Street to the easterly curb of Mulberry Street; thence southerly along the easterly curb of Mulberry Street to the northerly curb of North Canal Street; thence easterly along the northerly curb of North Canal Street to a point in range with the easterly curb of Lawrence Street; then southerly in

line with and along the easterly curb of Lawrence Street to the northerly line of the Central Railroad; thence southerly crossing the Central Railroad and Hamilton Street to the intersection of the southerly curb of Hamilton Street and the easterly curb of Columbia Street; thence southerly along the easterly curb of Columbia Street to the southerly curb of Elm Street; thence westerly along the southerly curb of Elm Street to the easterly curb of Mulberry Street; thence southerly along the easterly curb of Mulberry Street to the southerly curb of Walnut Street; thence westerly along the southerly curb of Walnut Street to the westerly curb of Broad Street; thence northerly along the westerly curb of Broad Street to the southerly curb of Court Street; thence westerly along the southerly curb of Court Street to a point in range with the Westerly curb of Plane Street; thence northerly in line with and along the westerly curb of Plane Street to the northerly curb of James Street; thence easterly along the northerly curb of James Street to the easterly curb of Washington Street; thence southerly along the easterly curb of Washington Street to the point of BEGINNING.

Section 2. It shall be unlawful to leave standing at rest or to cause or permit any vehicle to be left standing at rest in or upon any public street within the zone above described, unless said vehicle is in charge of some person capable of driving or operating the same, and then not for a longer period than fifteen minutes; provided, however, that this ordinance shall not apply to vehicles at rest for the purpose of loading or unloading goods, wares or merchandise during such period as may be neces-

sary for such loading or unloading, or to vehicles in attendance at funerals, weddings, receptions or celebrations.

Section 3. The regulations provided for in Section 2 shall apply between the hours of 8 o'clock in the forenoon and 6 o'clock in the afternoon on all days, except Sundays and holidays.

Section 4. Any person, persons, firm or corporation which shall violate any provision of this ordinance shall, on conviction thereof, forfeit and pay a penalty of two dollars (\$2.00) for the first offense, and ten dollars (\$10.00) for each subsequent offense.

Section 5. All ordinances or parts of ordinances inconsistent herewith are hereby repealed.

Section 6. This ordinance shall take effect immediately.

Commissioner Brennan: Mr. Mayor, I would like to have the ordinance adopted on first reading and hold a special hearing on it, open to the public and all citizens who desire to participate therein in the Council Chamber Friday evening of this week, June 10th. The Chief Justice has clearly defined the law relative to street obstructions, and while I feel, under his definition of the law, no ordinance is required, still I deem it important enough to obtain the opinions and suggestions of all classes of citizens who are going to be affected by it (and that means practically every citizen in the community), that is, by an ordinance of this kind, or the enforcement of the Chief Justice's ruling, if you might call it such, at least his definition of the law.

There is no denying the fact our public streets, especially in the center of the city, have been permitted to become congested. Business men are complaining daily; my office is kept busy answering complaints of business men relative to the parking of automobiles by others than those doing business in front of places of business on public streets for unlimited periods. We have an ordinance in effect at the present time which defines the length of the time automobiles may park on various streets within a given zone, but we find automobile owners can get around it.

For illustration, on streets where 30 minutes are allowed, the owner or driver will leave it stand for 28 or 29 minutes and then come out and move the car one or two feet, and, the automobile not standing at the same place, you therefore can not prove a violation. I feel this ordinance is not just what will meet with the wishes of a great majority of citizens, automobile owners and business men, but I do feel something has to be done, and possibly we may be able, after a conference with citizens, business men and representatives of various organizations, to arrive at some form of an ordinance which will give needed relief in the center of the city.

I have had numerous protests since this matter was given to the press relative to its adoption, and I have numerous letters on my desk from business men, organizations and others commending the passage of such an ordinance. I do not feel that I should leave myself subject to indictment on instructions of the Chief Justice (even though such an indictment may not be made), but I believe that every man realizes something

has to be done to relieve the congestion as at present existing in the center of the city.

Commissioner Brennan moved that a public hearing be given on the ordinance on Friday evening, June 10th, at 8 o'clock in the Council Chamber.

The roll being called, the motion was declared adopted by the following votes:

Yeas: — Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Commissioner Brennan moved that the ordinance be taken up on second reading on June 21st.

Yeas: — Commissioners Breidenbach, Brennan, Gillen, Mayor Archibald.

Commissioner Breidenbach moved to adjourn.

The following communication was received and read:

Essex Supply Company,  
54 Polk Street.

Newark, N. J., June 20, 1921.

The Board of Commissioners,  
Newark, N. J.

Gentlemen:

We have received notice of a committee meeting to consider the advisability of paving Delancy Street, from Avenue I to about 300 feet east of Avenue J. This company, as a taxpayer and owner of about 150 feet of property on Delancy Street, extending towards Avenue I from the corner of Stockton Street, desires to protest against the paving of this street at this time.

With the exception of the property owned by this company, and the adjacent plant of the New York and New Jersey Lubricant Company, the entire property in the vicinity is undeveloped, and the street is used primarily by the wagons engaged in collecting ashes and other refuse from the streets of the city.

This time is, in our opinion, a very unfavorable time to engage in any new work such as this due to the very depressed business conditions, which are affecting the manufacturers of this city who are in no position to endure additional expense, in addition to the present regular city taxes.

Furthermore, Wilson Avenue, which is only one block north of Delancy Street, parallels same all the way to Doremus Avenue. This street has been recently paved and, being in good condition, should furnish all the facilities needed to take care of all traffic from the meadow district.

We would request, therefore, that the Board veto this proposed improvement on the grounds that the present business conditions do not warrant the expenditure, that there is no necessity to furnish this improvement to the property owners on Delancy Street, and that Wilson Avenue adequately meets all of the requirements for this district.

Respectfully submitted,

Essex Supply Company,  
George B. Chandless, Auditor.

Ordered referred to the Director of Streets and Public Improvements.

Commissioner Raymond offered the following ordinance which was read by the clerk:

An Ordinance to provide for the grading and paving of Delancy Street from Avenue I to about 300 feet east of Avenue J. The street to be paved from Avenue I to Avenue J with old granite blocks on a 10 inch rolled broken stone base. From Avenue J for a distance of about 300 feet easterly, the street to be regraded to conform to the new pavement west of Avenue J.

The Board of Commissioners of The City of Newark, Do Ordain:

Section 1. That Delancy Street from Avenue I to about 300 feet east of Avenue J shall be graded and paved. The street to be paved from Avenue I to Avenue J with old granite blocks on a 10 inch rolled broken stone base. From Avenue J for a distance of about 300 feet easterly, the street to be regraded to conform to the new pavement west of Avenue J. Said improvement to be made as a local improvement and the cost thereof to be assessed against the

property benefitted by said improvements in proportion to the benefits received.

In order to avoid the necessity of excavating and tearing up the improved portion of said street, after the making of said improvement, the owner of any<sup>1</sup> and all lands on the line of said improvement are hereby ordered and directed to make the necessary connections with the sewer, gas and water mains to the curb line in said street for each lot fronting upon said street within thirty days after the passage of this ordinance. Upon failure of any such owner to make or cause said connections to be made, the same will be made by the Department of Streets and Public Improvements, in which case the costs and expenses of making said connections will be assessed against the lands benefitted. Each 25 feet of frontage upon said street for the purposes of this improvement shall be considered a lot.

Mr. C. P. Gillen, Mayor,  
City Hall, Newark, N. J.

Dear Sir:

The proceedings will soon be issued and I am trying to raise money enough to pay for them as soon as

they are out and so I am inclosing a bill for your dues as a reminder that we would be glad to have the money at your early convenience. I do not like to send too many reminders but the high cost of printing has made it necessary in order that we may meet our bills promptly as they come due.

Yours very truly,

Secretary.

National Rivers and Harbors  
Congress  
824 Colorado Building

Washington, D. C., June 13, 1921.

Hon. Charles P. Gillen,  
Newark, New Jersey.

My dear Mr. Gillen:

The City of Newark was at one time a member of the National Rivers and Harbors Congress and contributed to the support of its work, but its support has been discontinued.

We are undertaking a nation wide campaign of education as to the absolute necessity of developing and using our inland and coastwise waterways. We feel that the time has come when our Federal Congress should be so impressed with the importance of this through the influence

of popular opinion that such treatment of the problem as was demonstrated in our last two Rivers and Harbors Bills will be impossible of repeating in the future.

In order for us to meet the greatly increased expenses involved in making this campaign, it will be necessary for us to increase our revenues very materially. We are doing this by increasing our membership and by calling on those of our members to pay their dues where they have allowed them to lapse. We realize, of course, that the general depression of the times makes finances somewhat difficult to procure, but in so far as our work is to overcome these very conditions it seems all the more reason why our members should continue their support. It is going to require the united and concerted action of every and all municipalities in the country in a national way and through a national organization in order to create the public sentiment sufficient to influence our Congress to realize the immense possibilities for industrial development and the great benefit to be derived by their adopting a businesslike program for this improvement and make such appropriations as may be required to carry out such a program.

We want all business interests and business organizations to realize that the National Rivers and Harbors Congress is their own organization, that it is constantly and persistently working in their behalf, that it is their national representative, stationed in Washington, working as a progressive, efficient and yet impartial agency for the promotion of our waterways as a means of transportation. It is a general clearing house for the dissemination of information

and influence advantageous to waterway interests, a medium through which the civic organizations and waterway associations and waterway interests throughout the country may be kept promptly informed of pending legislation and other governmental activities. If the business organizations of the country will realize this and work in conjunction with us we would bring such pressure to bear on Congress that they would, out of necessity, give us what we asked for.

I am taking the liberty of enclosing a renewal statement for the amount formerly contributed by the City. May I ask you to bring this to their attention and impress upon them, if you will, the fact that we need their co-operation in order to make this campaign a success.

Yours very truly,

Cornish Bailey,  
Assistant Treasurer.
